Illia Smykalo

Senior Full Stack Software Engineer

Summary

With 7+ years of software development experience, I have contributed to projects small and large, demonstrating my professionalism with unmatched quality and reliability.

Being a professional developer means understanding all the requirements of a project and finding the best way to implement it to a high-quality standard.

As a senior fullstack engineer, I am proficient with modern web and mobile languages and I always focus on project structures and coding style, and etc.

Also I have great experience with cloud architect and when it comes to AWS and GCP, I'm considering myself one of the most qualified engineers.

Experience

Voice AI

Full Stack Engineer

2024 - May 2025 (1 year)

United States

- Led a 20-member development team at voice.ai, successfully delivering 3 mobile and 3 web applications using cutting-edge technology stacks.

- Implemented solutions utilizing React, Next.js, React Native, Python, PostgreSQL, AWS, and Swift to create robust and scalable software products.

- Ensured timely product releases while maintaining high code quality and optimal performance across all platforms.

A4D
